Ms. Deborah Steinkamp
Spencer County Solid Waste Management District
918 E. County Road 800 North
Chrisney, Indiana 47611

Dear Ms. Steinkamp:

Congratulations! You have been selected to receive an Indiana Recycling Grant in the amount of \$29,000 from the Indiana Department of Environmental Management (IDEM) to fund the purchase of a curbside recycling vehicle. I am pleased that we are able to assist the Spencer County Solid Waste Management District in support of your source reduction and recycling efforts.

Funding is made available by the state legislature (IC 13-20-22-2) to provide grants and loans that provide education and promote waste reduction, recycling and the use of recycled materials, and the management of yard waste.

These grants will be administered by IDEM's Office of Pollution Prevention and Technical Assistance, Source Reduction and Recycling Branch. The grant agreement is being sent under separate cover letter. You should be in receipt of this within a few days. If you are interested in more information about these grants or the criteria for obtaining these grants, feel free to contact your regional representative Larry Haag at 888-672-8323.

Sincerely,

Thomas W. Easterly
Commissioner
